

Student Activities Collecting Electronics for Recycling *submitted by Student Activities*

Did you know that computers contains plastic, glass, wire, connectors, fire retardants and heavy metals such as chromium, lead and cadmium?

The Student Activities Office's Semester Collection--Community Service Campaign will collect electronics for recycling from Tuesday, Jan. 27, through April 24. Items can be dropped off at the Student Activities Office (MUB 112). The office will gather items for weekly pick up on Tuesdays.

Student Activities, along with Star Industries in Marquette, will provide safe, confidential and complete destruction and recycling of computers and other electronics. One-hundred percent of a computer--including the monitor, CPU, keyboard, cables and mouse--will be recycled. No part will go to a landfill anywhere. For more information about Star Industries' electronics recycling, visit www.infodestruction.com/recycle-details.html .

The following items will be accepted for collection:

- * computers
- * game systems
- * accessories
- * calculators
- * printers
- * wire/cables
- * scanners
- * VCR/DVD players
- * telephones

Questions can be directed to Student Activities at [487-1963](tel:487-1963) or communityservice@mtu.edu .
